**Pace of Play**

Slow play is without question the number one complaint of the public golfer. Frustration with delays may lead to an inconsistent quality in your swing, concentration loss, anger and on occasion, violent behavior.

**To Speed Up Your Round**

- Be prepared to hit your ball when you are up!
- Mark the flight of your ball with a background object such as a tree, sign, tuft of grass, etc.!
- Always keep pace with the group in front of you.
- Tee off as soon as the group in front is clear.
- Disregard "honors." Shortest hitter tees off first!
- Observe the park rule of 2 minutes only to search for a lost ball!
- If driving a cart, the driver always drops off his / her partner with proper clubs and drives to his / her next shot!
- Always place your clubs nearest the next tee!
- Always read your putt as others putt out!
- Practice continuous putting! Never mark short putts!
- On Par 3 holes always signal the group on the tee to hit their tee shots!
- Leave the green immediately after the last player holes out! Never record scores on the green.
- Faster parties must be permitted to play through.

**Safety - First and Always!**

Mark Twain once said that, "Golf is a good walk spoiled." Unfortunately, his comment could come true, if you do not observe basic safety rules!

**Lightning**

Electrical / thunderstorms represent a serious threat to life. When a storm threatens, immediately discontinue play and leave the golf course. If you cannot leave, seek protection in a lightning / rain shelter, facility building, in dense woods, or low lying bunkers.

**General**

Be sure that others are out of range before you play your shot. Stand behind and away from a player making a shot. Yell "fore" to warn others of an errant or upcoming shot. Never throw a club, ball, or other object.

**Environmental Conditions**

You must take precautionary measures to avoid the physical stress associated with heat exhaustion, dehydration and exposure to the sun. Wear a hat, use a skin protector and drink sufficient fluids. You may be exposed to a variety of insect bites, including those of the American Dog Tick, Deer Tick, bees, wasps, hornets, and mosquitoes. Consult with your physician regarding use of insect repellents. Avoid walking in tall grassy areas and woods.
